

## district m wins Canada's Top Small & Medium Employer award.

Montreal, April 13<sup>th</sup>, 2018 – district m is proud to announce that it has been chosen as one of Canada's Top Small & Medium Employer award, given by Mediacorp in collaboration with the Globe and Mail.

Under Canada's Top 100 Employer, the SME category rewards the nation's best workplaces that go above and beyond to offer a dynamic working environment with forward-thinking human resources policies. Many job seekers fear that working for SMEs means giving up on the perks and benefits usually offered by larger companies. Quite the opposite: at district m, we know that our success couldn't be achieved without our employees.

This is why we pride ourselves in creating an amazing workplace with competitive salaries, comprehensive benefits and a full social calendar with monthly social activities. In a fast-changing industry, employees are expected to put all hands on deck to help the company thrive and grow. We demand the best from our employees, so it makes sense that we would offer the best working conditions for them to achieve success.

Beyond the perks, district m puts accountability for tasks, projects, targets and achievables onto the individual – that's how we build experts and innovators that reflect the 7 core values that make district m the successful company it is today.

FOR IMMEDIATE RELEASE

**About district m**

district m is a full-service advertising exchange that creates open, transparent marketplaces through which publishers and advertisers can quickly and easily connect to maximize today's digital advertising demand. Since our inception, we have served as a trusted monetization partner to 2,500 publishers globally by bringing incremental demand through over 200 unique brand partnerships.

With offices in Montreal, New York , Toronto and San Diego, and propelled by an investment by Fonds de solidarité FTQ, we continue to grow and increase our footprint in the digital media industry. As of today, our company is comprised of more than 70 talented experts who are all responsible for its international success and influence.
